

# WHAT'S IN THE RECYCLING BIN?

84%

IS RECYCLABLE MATERIAL

16%

IS MATERIALS THAT CAN'T BE RECYCLED

through this bin (CONTAMINATES)

(CONTAMINATES)

are items that don't belong in the recycling bin and end up in landfill. Contamination increases the cost of recycling for households.

The main contaminates found in the recycling bins are:

Bagged Materials

Clothing & Textiles

Food & Garden Organics

Soft Plastics
