

# WHAT'S IN THE WASTE BIN?

**52%** **FOOD AND GARDEN ORGANICS**

most of which can be composted at home or through the green lid organics bin

**16%**

**RECYCLABLE MATERIAL**

that belongs in the yellow lid recycling bin

**3%**

**HAZARDOUS WASTE**

such as batteries and fluorescent light globes that must not be put into any kerbside bin

**29%**

**NON-RECYCLABLE WASTE**

that can't be recycled or composted through the kerbside bins

The most common recyclable items found in the waste bin include recyclable plastics, such as plastic milk bottles, and aluminium and steel such as cans. PLACE THESE ITEMS INTO YOUR YELLOW LID RECYCLING BIN!

**reduce.recycle.**
